The BK Foundation will provide a variety of animals and services to each individual based on their desires, abilities, and needs. We will focus to build a program that you can attend and take part of to give you the most fulfilling experience as an individual. The animals will include but not be limited to Horses, Sheep, Goats, Dogs, Cats, Rabbits, Reptiles, Birds, and some exotics as well. Please provide the rest of the page to help us Make Your Dreams A Reality. We would love to know what you would like to learn and gain from this as well as your dream animals to work with. Please use the following section to let us know if there is a specific animal you would like to experience as well as anything you are wanting to do with the animals such as being able to ride a horse, help an animal recover from a health condition, be part of the day to day farm activity and ranch life, etc. This helps us get to know you as the individuals and how we can make your dreams come true.
